Note.—Until the year 1873, vessels employed in the conveyance of certain articles, exempted from Coast Regulations, were omitted from the Coasting Trade returns. The result of including them was apparently a larger increase in the Entries than in the Clearances.

Note.—This Return includes Channel Islands Vessels, but not those of other British Possessions.

The Home Trade signifies on the Coasts of the United Kingdom, or to Ports between the limits of the River Elbe and Brest.

The Foreign Trade signifies to Ports beyond such limits.

No Foreign-going Vessel is included which has not been so reported within four years, and no Home Trade Vessel which has not been reported within one year. It is possible that some Vessels may be included which have ceased to exist, or are no longer employed as British Vessels, but every endeavour is made to ascertain and strike off such Vessels.

With respect to the Crews, a very small deduction ought to be made for the case of men who join a fresh ship immediately on their discharge from the former one, which happens to remain in Port.

NOTE.—More precise information having been obtained as to the receipts of Local Authorities for the year 1882-3, it was discovered that in previous years large sums received in respect of the sale of gas and water by Urban Sanitary Authorities had been returned as receipts from Public Rates. The figures for previous years have been corrected so far as it is possible, and now show, as nearly as the accounts will allow, the receipts from Public Rates.

* In 1872-3, the expression "Urban Sanitary Authorities" is substituted for "Local Boards" and "Improvement Commissioners," † Partly estimated.

* Net Amount of Property upon which Probate and Succession Duties were paid.

* A great change was made in the death duties in 1881-2, and from that date Property assessed to Probate Duty constitutes the true record of personally changing hands by death.
 † In these two years the capital was abnormal in amount, the operation of the Land Act of 1881 and the fixing of Judicial Rents having led to delay in recovering duty due for former periods.

NOTE.—More precise information having been obtained as to the receipts of Local Authorities for the year 1882-3, it was discovered that in previous years large sums received in respect of the sale of gas and water by Urban Sanitary Authorities had been returned as receipts from Rates. The figures for previous years have been corrected so far as it is possible, and now show, as nearly as the accounts will allow, the receipts from Rates.

† In 1872-3, the expression "Urban Sanitary Authorities" is substituted for "Local Boards" and "Improvement Commissioners."

‡ Partly estimated.

The total number of persons employed includes foreigners, but not masters, nor Lascars and Asiatics serving under Asiatic Articles of Agreement.
The number of persons employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year.
The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.
The Foreign Trade includes vessels trading or going beyond the above limits.
Some vessels known to be trading abroad are omitted from the Return, because no late information of the number of their crews could be obtained.
